ROSEN "Create-A-Headrest" PROGRAM

Create your own custom headrest applications for vehicles we don't offer.

It's Easy if you follow these 5 simple steps:

1. Measure the vehicles headrest post diameter and on-center spacing in millimeters. Use the post measuring tool (P/N: MT7500) or the paper version located on Rosen Dealer Central.

2. Locate the headrest post part # from the Rosen/Classic Headrest Application Guide

NOTE: Make sure to check headrest and post stock availability when ordering!

5. When you receive your headrests and posts check fit the posts into your vehicle. If correct, install onto the headrests (Approx. 3 min per headrest)

NOTES:

- A. Post notches may be different than your application. Look at where the notches are (Left Inside/Outside, Right Inside/Outside).
- B. **IMPORTANT:** The 2-piece posts must be installed properly so they provide the proper forward angle to the headrest. Make sure to install into the proper spacing indent. If you have received 1-piece posts then disregard the first notes and install in the same manner and angle as the ones you are removing.

PLEASE READ BEFORE ORDERING:

- > Modifying the headrest cover for the new post width makes the modified headrests non-returnable!
- > Posts removed from original headrest are non-returnable.
